PROPRIETORS.

The Beard of Trade-R. R. Matters. In our columns this morning will be found the report and resolutions, submitted by a very respectable Committee of the Board of Trade, and unanimously adopted by that body, upon the subject of the La Crosse Railroad and certain attacks which have been made upon its management in one of the daily papers of this city. While we concur in the opinion expressed by the Committee, of the importance of this enterprize to Milwaukee, and while, with them, we deprecate any attacks upon the Company, or its officers, as only calculated to impair their credit and embarass their operations, accomplishing any good result, we think that both the Committee and the Board overstepped their proper functions in undertaking to act as Consors of the press, and to discipline the American for what it saw fit to say about the road. We dissent entirely from the views expressed by the American on this subject and regret to see the course which it has pursued, but we are by no means convinced that it is "dictated by unworthy motives," and indeed are inclined to believe that it is prompted by an honest, but mistaken sense of duty.

The La Crosse Company and its President, Mr. KILBOURS, may well feel flattered by the expression which this controversy has drawn out from our Board of Trade, comprising, as it does, the leading business men, merchants and capitalists of our city. It is at least an offset to the attacks of which they complain and its value, as a voluntary endorsement, will be appreciated both at home and abroad.

Fourth of July.

There was a large and spirited meeting at the Court House, Saturday evening, to make arrangements for celebrating the coming Fourth of July. JAMES A. MALLORY was called to the chair, and GEORGE A. WOODWARD appointed Secretary. Committees were appointed on Finance, on Fireworks and Music, and to select the Officers and Orator of the Day. Messrs. Daniel Schutzz and J. S. FILLMORE were added to the General Committee of Arrangements. It was decided to meet again at the Court House next Thursday evening, when all the Committees are expected to report progress. The determination was earnest and general to get up a first-rate Celebration.

A GENUINE KNOW NOTHING .- The following good story was lately told by a Mr. Perrin during

When the reader came to that part of the re port which reads: "Millard Fillmore, eight votes!" he was interrupted by his hearer's surprised manner, as he exclaimed: " Millard Fill more got only eight votes in the whole United States—seven besides my own! I'll go down and whip the German band. I gave them lagerbeer, and they promised to vote for Fillmore, and that would have made seventeen votes anybow; nd they didn't do it. Only seven votes besides mine in the United States!" And the American can hurried away, with a sad phiz, inquiring for the band he had treated to beer if they would vote for Fillmore!

THE OSTEND MANIFESTO TO BE MADE PRACTI-CAL. -Ex-Secretary Jefferson Davis is said to be full of the acquisition of Caba. His recent speech at the grand reception given him at Vicksburg, was all about Cuba and the efforts made by the Pierce Administration to get possession of that lovely, but exposed island. The platforms of the cars are also connected, thus preventing the dust from rising. This arrangement confines all the dust berneath the cars, and allows it to pour out at the rear end of the train in a perfect torrent. All the annoyances caused by that pest of summer travel, dust, is avoided, and a pleasant, cool and comfortable ride may be taken in the dustiest weather, without damage to the lungs or good elothes.

EXPERIMENTS IN SPIRITUALISM .- Interesting experiments have been going on in Boston for some time past, at the house of Professor Agassiz, under the eye of various scientific men, under an offer of \$500 made in the Boston Courier for absolute proof of the "actuality" of the phenomena. It is just possible that some of the philos. ophers present may, when once they approach the subject sensibly, obtain the clue by which to unravel this great mystery of the day in nature, and tell the world what are the character and elements of the natural force which is responsible for the phenomena of clairvoyance, spiritualism, nesmerism, biology, psychology, &c., &c.

The President called the Board to order, Sat urday morning, and Mr. John Nazao read the following report, which was unanimously adopted, and ordered to be signed and published: REPORT OF THE COMMITTEE.

The committee who were jesterday appointed which that great work has been prosecuted, and to extend the interests of the pressourentire confidence in the capacity and integrity trade of the city, as affected by the railroads tributary to ic; and especially as affected by the grants of land in aid of Railroads, and of the st-Crosse & Milwaukee R, R. Co., have given the subject such attention as the limited time would admit, and submit the following REPORT.

Before any Railroad had been constructed west of Lake Michigan, the business, population and wealth of Milwankee steadily and rapidly increased, and the proportionate increase was greater than that of Chicago, or any other city upon the Lakes; and it promised, in the course of two or three years, to contain a greater population than Chicago. This was the result of its natural advantages, flowing from its geographical position, its superior barbor, and the greater attractions which Wisconsin presented to the emigrant over those of Illinois. If this natural condition of the country had remained unchanged, the same results in reference to population and trade might have been expected to be witnessed, only in an increased ratio. But within a few years, more than 1800 miles of Railrods, nearly all of which, beside a considerable portion in Wisconsia, Iowa and Missouri, is calculated to promote the growth and prosperity, and partizan returns of the census to the Torrical executive, and he must know that several is countried and business of Chicago. means of these Railroads. In this great work of increasing by the instru montality of human efforts, the facilities for trade broad than by the exertions of her own citizens, mprove them.

A deeper interest bowever has more recently een taken by our citizens in Railroad enterrises, and they have so progressed, that already he amount of Railroad in operation in the State, nearly all of which is directly tributary to Mirwaukee, exceeds 600 miles, and when the Roads nact system, by which the Government pays projected, and which are quite certain to be built within a very short time, are finished, more than 2,000 miles of Railroad in our own State, and a greater amount in Minnesota and Iowa, will be in operation, pouring through the port of Milwaukee the products of the vast extent of country to which they will extend Railroad facilties. When these improvements are completed, Milwaukee will rival Chicago in the artificial advantages which it possesses, as it always has excalled in natural advantages, and when placed on an equality in this respect, the results will follow which might naturally be expected, and Milwaukee will take its position as the commercial em-

"It is with deep grief that we discover that a portion of the church at the South has so far departed from the established doctrine of the church in relation to slavery, as to maintain "it is an ordinance of God," and that the system of slavery existing in these United States is Scriptural and right. RUNAWAYS .- We are getting so used to runaways in this city that they are now considered as matter of course—every day occurrences. Scarcety a day present that we do not have more or less of these intessetting, but very dangerous, afreet entertainments—Fortunately, no very serious accidents have occurred rom them of late, though there have been many nar-

Some runaways happen acciden ally, and may be classe among those unfortunate circumstances which cannot be avoided, but much the larger portion occurs from gross releases on the part of drivers; and such careles ness merits the severest punishment that the law will allow. The lives of our citizens are endangered by them every day, and it is absolutely ucusfe to wait through East Water Eirect Curing the day time without keeping a sharp lookout for runaway horsen. In larger cities than ours they are of less frequent courrence, because the violating of City Ordinances are more strictly enforced. On Saturday afternoon a team was left standing in the On Saturday afternoon a toam was left standing in the alley, in the rear of the Walker House, unhittelect; something happened to righten them, and off thay put, down through the siley towards Wisconsin Street, and just as they were about to emerge from the alley, upon the street, a lady and little girl were crossing, and had they been half a minute later they would have been run over the horses than ran "Hokely bang" up Wisconsin Street, and made a full charge upon Wm. P. Young's pile of building materials, where they left part of the wigon, and with the remainder started awain up Milwaukee or contains materias, where they detailed with the remainder stated awale up Milwaukee Street, where, after running considerable ways, and scattering fragements of the wagon promisedously around, they were stopped. A little later another took place, the front of the Post Office being the starting point; it was a horse attached to a buggy belonging to Mr. Hibbard. He

No damage done, more than the smashing of the vehicle SATURDAY NIGHT .- Last Saturday night was one of those few nights that we are blessed with, one of those few nights that we are blessed with, which partake more of Heaven than Earth. If was truly a glorious night! The six was beling as the 4ews of india, and the silv-rylight of the moon glistening upon the smooth waters of Michigan, which were not ruffled by the slightest breeze, gave to the surrounding scenery, almost a spiritud appearance, and one might for a time have imagined hineself transported to the regions of purity! As we stood upon an elevated point, overlooking the city and lake, every sound was hushed, and the arms was truly incipring. The watch-dog had ceased the city and take, every sound was mustice, and the some was truly inspiring. The watch-dog had ceased to bark, the noisy city was at last resting in quietness, and the waters of the lake rolled in silent majesty. The stars twinkled at each other for joy, and never did our beautiful city lock more beautiful than in the moon whi of Saturday evening.

norse attached to a oughy seconding of art. and other got frightened, made a plunge towards the side-walk, came in collision with a lamp post, smashed the buggy in pieces, and brought up in the door of Bosta' Beer Hall!

STILL HARPING.-The American still insists that its estimate of the buildings erected and in progress in our city this season, derived, by its own confeasion, from real estate desions, is better than an actual count, (1949), and wishes us to "drop the subject." We do it, willingly, with the brief remark that the seemingly small best by the American of an item, obtained by us with some trouble, has led it into some half a dozen falsehood

of the ambject. Hencely at first—the best policy—would have avoided all this discreditable fibbing.

FOUND DROWNED .- A German girl, named Mail'da Hildebrand, aged about 78, living with a brother-in-law in the Sixth Ward, left home last Sunday (vening and was not again seen until yesterday afternoon, when her dead body was found in the river, just below the Cherry Street Bridge. Nothing is yet known of the cause, or circumstances of her death; but the Coroner's Inquest may throw a light on the subject.

ANOTHER.-In the river, at the foot of Biddle treet, on Saturday afternoon, was also found the body of an infant, which appeared to have been about two months in the water, and is supposed to have been drowned be. bre it was two days old. This was very likely the child

to hide her shame. STREET COMMISSIONERS' ORDERS-Stath Ward The following lots are declared nuisances, and ordere Lote 11, 12, 18 and 14, and altey between lots 18 and 14,

Messrs. R. & Co., will do both whotesale and retail business, and as they are good, clever gentiomen, and en terprising businessmen, we trust they will meet a liberal

PLEASANT SIGHT,-We saw on Saturday, in the hold of the fine bank Hane Creeker, 12,000 bus of Milwau kee white winter wheat, the hand somest lot of the size, we think, that has ever cleaved from this port. The quan-tity of winter wheat raised is comparatively small, and most of it being taken by mil lers, or mixed with spring, it is very seldem that a clear cargo is made up of it.

CONCERT SOCIETY .- The first Concert of this new Society will be given at Young's Hall, on Friday next.
This Society has been recently organized, and its members, we understand, consist of some of the best artists in our city. A great deal of pains has been taken to make their first Concert an attractive one, and we hope they may meet a hearty support.

HANDSOME BRICK .- Messrs. Besley, Watkins & Co., advertise. a lot of new brick, which are ready for delivery to day. WASHINGTON, June 5.
Secretary Cobb has issued stringent orders to
the Collector at New York, touching the custom
which has provailed in his office, of compromiswhich has provailed in his office, of compromising with parties detected in attempts to defraud the revenue. All such parties are hereafter to be prosecuted to the full extent of the law. Various other evils, destructive of the interests of the honest merchant, are to be remedied.

The report of Capt. Davis was to-day submitted to Mr. Buchanan, who approved of the course pursued, but condemned the instructions of Jas. 10, under which Capt. Davis acted. The course of Capt. Davis also meets the approval of Secretary Toucey. tary Toucey.

The Cabinet have now before them a proposition to protect American trade with the East Indian Islands. It is represented that there are

now fifteen ships ready to sail from Now York for those islands, if Mr. Buchanan will say the word. The last Congress made an appropriation the middle of July, as the administration desire affairs in China to develop themselves a little before Mr. Reed's arrival. Moreover, the coal which is to be sent out in advance of the Minnesots, for the supply of that veerel, has not yet left New York.

Washington, June 6. Seth Kinnean, who presented a buck-horn chair to the President, has received an appointment, for assisting to remove certain Indians on the Pacific coast. The salary will be about \$1800 Pacific costs.
